

alphaTrust.ch ag becomes a part of BKW Building Solutions AG

The company alphaTrust.ch ag, based in Luterbach, was founded in May 2001 by Damian Moser and has made a name for itself within the industry over the last 20 years: Initially active as a system integrator in messaging and Microsoft basic infrastructure, the company has advanced to become an innovative IT service provider with a high degree of specialization in the areas of Infrastructure Services, Network & Security, Cloud Services and Managed Services.

Damian Moser and his strong team have very successfully managed, built up and further developed alphaTrust.ch ag for 20 years, so that alphaTrust.ch ag is now an extremely successful player in the market. Today, more than 200 companies in the private and public sectors and from a wide range of industries rely on its high-quality IT services.

As a logical next step in the company's development, BKW Building Solutions AG has taken over the entire share capital of the company and is now the full owner of alphaTrust.ch ag. BKW Building Solutions AG is part of BKW AG and is present throughout Switzerland with a regionally anchored network of companies with experienced specialists in the fields of electrical, plumbing, heating, ventilation, air conditioning, refrigeration, plumbing, solar, building automation, electromobility and IT. The focused expansion of IT expertise is intended to meet future requirements relating to the networking of smart buildings. In the long term, the acquisition will enable BKW Building Solutions AG to offer a comprehensive and integrated range of building technology services, including innovative IT solutions. alphaTrust.ch ag will support the company with its 20 or so specialists.

BKW Building Solutions AG and alphaTrust.ch ag are aware that the flexibility and agility appreciated by the existing clientele is a prerequisite for a successful future organizational structure. Accordingly, a high level of attention will be paid to this point throughout the integration process.

Peter Winkler, Dr. Arne-Christian Faisst, Bernard Frossard, Damian Moser, Matthias Prüssing, Sandro Schlatter, Marc Schläpfer

Both companies are looking forward to a common future together with their existing customers and top employees.

BKW

The BKW Group is an internationally active energy and infrastructure company headquartered in Bern. It employs around 10,250 people. Thanks to its network of companies and its innovative technologies, it offers its customers comprehensive expertise in the areas of infrastructure, buildings and energy. It plans, builds and operates energy production and supply infrastructures for companies, private individuals and the public sector, and offers digital business models for renewable energies. Today, the BKW Group's portfolio ranges from planning and consulting in engineering for energy, infrastructure and environmental projects to integrated offerings in the field of building technology and the construction, service and maintenance of energy, telecommunications, transport and water networks.

BKW Building Solutions

BKW Building Solutions unites building technology companies under one roof. These companies plan, implement and maintain comprehensive solutions in the fields of electrical engineering, heating, ventilation, air conditioning, refrigeration, sanitation, plumbing, solar, building automation and IT. From consulting to project planning and installation to maintenance, they offer their customers comprehensive services for new construction or renovation projects from a single source, regardless of whether the project involves a private, commercial or industrial building or a public building. Service work with a 24-hour emergency service is also part of the BKW Building Solutions portfolio. Thanks to the various companies that belong to the group of companies, BKW Building Solutions is regionally anchored and at the same time networked throughout Switzerland.
